

PNEUMATIC ROTATING UPHOLSTERY TABLE

Pneumatic rotating table for upholstery works and packing operations.

This TBK table is designed to make furniture gluing .

The rotating tabletop is covered with stainless steel that can be easily cleaned after the work is finished

Technical data:

Typ: **TBK 12-075 O**

Workbench dimensions: 1200 x 750 mm

Workbench tubes - span: up 600 to 800 mm

Lifting height: up 500 to 820 mm

Lifting capacity: 160 kg

Weight: 150 kg

Features and advantages:

- stable, durable, robust construction
- tabletop covered with stainless steel sheet ensuring cleanness and discharge of static electricity
- rotation of the tabletop – 360 deg. with pneumatic latch
- height adjustment by means of foot levers located on both sides of the table
- pneumatic lock preventing fall of the tabletop after compressed air has been disconnected
- steel tubes on the tabletop prevent uncontrolled movements of the furniture

PNEUMATIC PRESS FOR UPHOLSTERED SEATS

DPT press is self standing version, perfect for both small and medium size elements. The rotating tabletop is covered with elastic foam for easy stretching of the workpiece cover.

Technical data:

Typ: **DPT**

Workbench dimensions: 1200 x 750 mm

Workbench tubes - span: up 600 to 800 mm

Lifting height: up 500 to 820 mm

Lifting capacity: 160 kg

Weight: 150 kg

Dimensions of the base: 700 x 700 mm

Working pressure: 6 bar

Key features:

- Using this press one can significantly improve efficiency productivity and quality of your chair manufacturing department.
- The press is a perfect machine for office chair seats or backrests upholstery.
- The control device with two-hand button control system ensures safety when operating the press. It is possible to adjust the pressing force using air pressure regulator.
- Long stroke of the pneumatic cylinder and lower telescopic stand allow adjusting press to a comfortable height for the operator.
- The press provides controllable and even pressing of chair seats and backrests (fabric, upholstery foam, chipboard), so there is no need to pull the material to ensure its right tension.
- Press is equipped with rotary cushion that makes upholstery nice and easy.
